FIRM COMMERCIAL OFFER – ROCK PHOSPHATE

This commercial offer for the purchase of rock phosphate under the following terms and conditions:

- Commodity: 28% Rock Phosphate
- Quantity: 50,000 metric tons (MT)
- Preferred Volume: 12X50000 (600,000 metric tons)
- Unit Price: **CFR INDIAN PORT** (adjusted with energy and market conditions quarterly)
- Loading Port: **WE WILL ADVISE**
- Payment Terms: Irrevocable Letter of Credit (LC), subject to mutually agreed banking terms and the final executed Sales and Purchase Agreement (SPA)
- SGS INDEPENDENT TESTING AT LOADING PORT

Items	Results	Method
Moisture	1.98%	AOAC950.01/2023
Total P2O5 (On dry basis)	28.05%	AOAC958.01/2023
CL	0.10%	AOAC928.02/2023
SiO2	6.70%	AFPC IX.5
LOI (Dry)	8.31%	AFPC IX.20.A
Solubility in 2% citric acid	40.23%	In house method (Gravimetry)
Solubility in 2% formic acid	47.20%	In house method (Gravimetry)
Organic carbon	0.34%	AFPC IX.17.A
F	2.77%	* Ion Selective Electrode Technique (based on IS 5470:2002)
Fe2O3	1.802%	EN 16965:2018
Al2O3	0.371%	AFPC IX.7.B
CaO	44.660%	AOAC 945.04:2023
MgO	0.365%	EN 16197:2012

Typical Screen Analysis		
ASTM Mesh No.	Micron	Percent
+18	+1000 µ	33.759
+35	+500 µ	14.594
+230	+40 µ	47.011
-230	-40 µ	4.636
